

Please keep the blocks on soliciter calls. I have had three spine surgeries, these causes me pain to get up and answer the phone, I am also on pain pills which causes me to sleep more than usual. It was so frustrating to get 7 to 15 calls a day. It is now down to about 1 a week. My elderly parents were also experiencing frustration over trying to get to the phone, only to have some ask about windows, siding, magazines, etc. Please don't allow the harassment to start again. If an individual put thru as many calls as businesses do they would be sited for harassment. PLEASE don't let the calls start again. Let them use the mail for their ads.
